

Directorate of Distance Education organizes Audio-Visual Demonstration for PG English Students

The Directorate of Distance Education, University of Kashmir, as part of its learner engagement policy, has a rich legacy of offering extra academic activities to the distance learners in the form of seminars, workshops, extension lectures, interactive sessions, audio-visual demonstrations, etc besides the regular contact programmes. In this regard, the DDE organized an **Audio-Visual Demonstration** for the PG English students, Batch **2016**, on **22-07-2017**, in the AV Lab of the Directorate in which visual demonstrations of plays and other syllabus related contents were displayed to the students. The demonstration was followed by an engaging discussion in which students asked questions and sought clarifications related to the visual contents.

The programme was highly appreciated and applauded by the participating students with the demand of more such activities from the Directorate. Director DDE, Prof. Neelofar Khan, in her presiding lecture, promised more such activities in future also.
